

Tom Watson appointed Chief Executive Officer

2 August 2022. Bionical Emas, a global Contract Research Organisation (CRO) providing services to the pharmaceutical and biotech sectors, has appointed Tom Watson as its Chief Executive Officer (CEO). Jonathan Waring-Hughes has left the business.

Tom joined Bionical Emas four years ago. For the last year he has been on Bionical Emas' board as Chief Operating Officer (COO). Before that, he led the Group's rapidly growing Early Access Programs (EAP) business.

Andrew Borkowski, Chairman at Bionical Emas, said,

"We are delighted to appoint Tom as Chief Executive Officer. He has operated across the international clinical research and services sector for many years and brings considerable experience and expertise."

"The Board looks forward to supporting the business continue to go from strength to strength over the coming years."
